NEW CONSTRUCTION 2025! A true one of a kind. Arguably a hurricane proof house built almost entirely out of Superior Walls. Their panels were used for the basement and main level of the house. It's a wide rancher layout boasting over 3400sf of livable space. 4 Beds, 3 Full Baths + Dog Shower. After walking through the oversized foyer, you will immediately enter the open concept great room and kitchen with a 14.5 foot ceiling height to the center of the vault and a 12 foot ceiling height to the center of the vault in the Master Bedroom & the Master Bathroom! Vaulted ceilings continue in the master bed, master bath, master closet, and vaulted ceiling in the laundry room! The upgrades are endless. Tankless Instant Hot Water Heater, Tile Dog Shower in Laundry Room, Custom Stucco/Stone Exterior, Custom Tile in all 3 bathrooms. Master Shower has 3 foot wide Niche with 3 foot long LED strip lighting in the niche, Hardwood Flooring on main level, White Shaker Cabinets in Kitchen, Quartz Countertops, Large Kitchen Island, Custom

Make-Up Counter in Hall Bath. Superior Walls are super energy efficient. The energy loss is a fraction compared to traditional stick frame construction which means that when you heat or air condition the house, that energy will stay inside your house much longer. Since the Superior Walls are over 10 inches thick, all the Windows & Doors are set back 6 inches from the exterior and all of the sills have a chamfered (angled) slope away from the windows/doors. Rain will rarely touch those windows/doors. All windows/doors still have liquid applied waterproofing with pan flashing. Entire Roof has Ice/Watershield.
